

Ivane Javakhishvili Tbilisi State University

Children's University

Main principles

ensure persistent connection between schools and university

encourage children to become a part of science

raise awareness about global problems and support children to mature into a responsible part of global society

involve young people from disadvantaged groups

enlighten children about their future educational alternatives

HOW WE DO IT?!

free courses

Our projects and certified courses are free of charge

project diversity

Project variety gives us the opportunity to cover every grade - from first to 12th.

volunteer-based

involving students as volunteers help us cover more parts of country

Guided tours at TSU

Schools or classes can arrange Guided tours and find out more about the past and present of the University

Scientific activities for primary school students

For primary schools we offer astronomy classes and chemistry lab visits.

Certified courses

We provide 6-30 hour free certified courses, winter/summer schools in the fields of: law, ecology, culture studies, chemistry and e.t.c

Contests

We want children to become global problem solvers, so we offer contests variated by age and interests.

Career planning courses

Our courses help high school students to plan their career path and find more about future opportunities.

Regional visits

With regional youth clubs involvement we visit regions and provide information about TSU opportunities.

TSU envoy

More than 200 Enrollees per year

Volunteer-based

Students going back to their schools

Of 69 municipalities, 65 were covered

Trainings are provided before school
visits

support provided by partners
